

Yaroslav K.

Yaroslav K.		
		WEB Developer
Summary of Qualifications	<p>I'm a software developer with strong soft and hard skills. Love working on interesting projects, especially in a team. My main life goal is self-education and self-development, that's why I'm looking for a good team to enjoy my hobby and possession - programming. I'm strongly encouraged to discover new technologies, including AI, DS, ML, etc.</p>

--	----------	--

Experience	
Zapleo soft	
Period:	may 2021 - present
Role:	Full stack JS web-developer
Responsibilities:	Development web apps from scratch. Back-end + Admin panel
Tools & Technologies:	Node.JS, React.JS, Angular, Express
Binary Studio	
Period:	okt 2020 - may 2021
Role:	Full stack web-developer intern
Responsibilities:	Working on a mobile app for a fintech project with complicated business logic. Some uncommon features were developed such as working with the camera and cropping images responsively to the device size, setting biometrical authorization, and others.
Tools & Technologies:	Main technologies stack React- native (with expo), redux, redux-saga, i18n
Responsibilities	Working as a full-stack web developer mostly on the client-side of big learning management system. Most of the tasks were related to support, refactor, and modernizing e.g. fixing bugs, adding localization, fixing markup responsiveness, and rewriting old code.
Tools & Technologies:	For the client-side React.js, react-tables, react-localization, redux, redux-sagas, and many others were used. For the server-side were chosen Express + MongoDB and Postgress with TypeORM
Responsibilities	Worked in team of 2 developers on client side of SSR application with veterinary topic. A big accent was made on accessibility and mobile devices support
Tools & Technologies:	Used technologies: React, Next.js, SASS + CSS modules, checkout api
Freelance	
Period:	jan 2020 - oct 2020
Role:	Full stack web-developer intern
Responsibilities:	Creating a full-stack app with chat functionality. It

	had functionality similar to Slack. Some of the features are sound notifications, workspaces, invites via email, and others. There were used specific technologies, WebSockets for obvious reasons and TinyMCE API for reach text editing. Technologies stack:
Tools & Technologies:	React.JS, JS, SASS, Express, Typeform + PostgreSQL HTML, CSS,

Education	
	NTU "KPI"
Period:	09/2018- 06/2022
Degree:	Bachelor Software engineer
Faculty:	Faculty of Applied Math
Department:	Computer Systems Software
